

Data processing

1. Final task assignment

This mission is to be performed using the relational DBMS (Database Management System) Microsoft Access 2016.

Contestants will perform the following key tasks:

- ✓ Contestants must create a database of travel management and reservation at the match playground.
- ✓ Contestants must create a database on their personal computer (not connected to the local and global networks), configure tables to populate information, establish relationships between tables, and configure the forms necessary to enter information into the created tables.
- ✓ The contestants then create update queries, parameter queries, and queries using functions.
- ✓ The contestant also creates a form that separates the user's and administrator's privileges through the login and produces the results of each form.
- ✓ If there is no user ID, you must be able to log in as a member through membership registration.
- ✓ The result of the assigned task is a fully functioning main Access switchboard with defined buttons, and the main menu changes depending on the login.
- ✓ Therefore, when you run this database, the login screen should automatically appear.

Precautions, Notes, and Safety Tips

- ✓ Contestants observe safety and hygiene regulations while working with computers. Competitors communicate in English with guests and judges.
- ✓ Contestants are not allowed to communicate directly with judges in their home countries.
- ✓ Organizers provide contestants with computers with software installed.
- ✓ To create a database and populate information, you need a Windows operating system and MS Access 2016 and MS Excel 2016 software.
- ✓ If you are caught cheating, talking to one of the visitors, or using a mobile phone, you will be penalized 5 points for the first offense. In the event of a second offense, the eligibility to participate in the competition will be disqualified.
- ✓ All desk computers will be equipped with an AZERTY keyboard. However, Contestants can install and use a keyboard/mouse without macro function after review by the judges.
- ✓ The jury will collect all electronic means of communication contestants may have (Cell phone, tablet computers...) at the beginning of the competition. They will be returned to their owners once the competition is finished.

- ✓ Contestants will save their work on a USB flash drive and hand it to the jury for evaluation.

2. Allocated time: 3h00

The contest duration is 3 hours 00 minutes.

3. Requirements

Module 1. Create a database structure

Allotted time: 20 minutes

1. Database

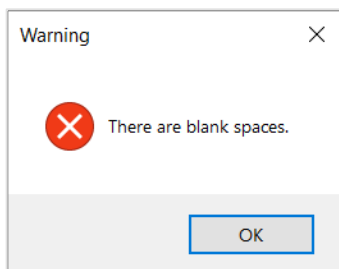

- Create a "Travel Reservation Management" database that travels from Paris to each country.

A. Common conditions

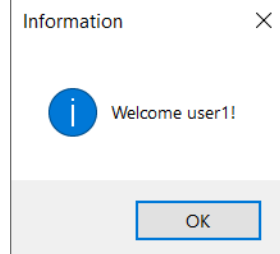

- Move to the previous page when all pages except EXIT are closed
- Apply an icon ( logo.ico) to the title bar of all pages and reports. However, if there are DB and icon files in the same folder, they will appear even if you change the folder.

B. Message example

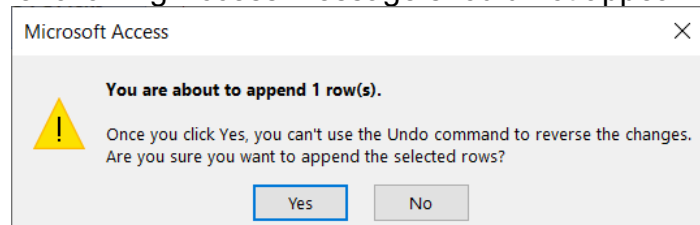

- warning message example)

- information message example)

- The following Access message should not appear.

2. Create table

- Create the following table using 'DATA.xlsx'.

A. Member

Field Name	Data Type	condition	note
M_No	AutoNumber	PK	
ID	Short Text		
PW	Short Text		
Mileage	Number		euro / 2 decimal places
DateOfBirth	Date/Time		

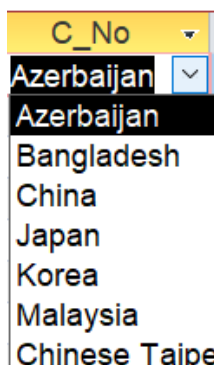

B. Country

Field Name	Data Type	condition	note
C_No	AutoNumber	PK	
CountryName	Short Text		
AccruedMileage	Number		
CountryImage	Attachment		Country folder

C. Travel

Field Name	Data Type	condition	note
T_No	AutoNumber	PK	
C_No	Number	FK	Country
ArrivalName	Short Text		
Minute	Number		1 or more (integer)
TimeTaken	Date/Time	Run on TimeUp query	Run on TimeUp query
Amount	Number		euro / 2 decimal places
Explanation	Long Text		
TravellImage	Attachment		Travel folder

- The 'C_No' field uses 'Country' to show 'CountryName', and the actual input value is 'C_No'.

- If 'Minute' is less than or equal to 0, a warning phrase 'Please enter a number greater than 1.' is invoked.

D. Airline

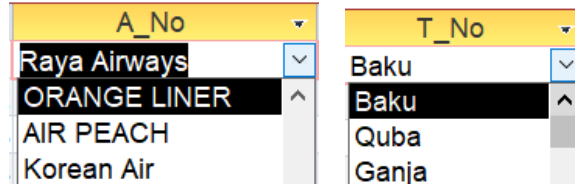

Field Name	Data Type	condition	note
A_No	AutoNumber	PK	
AirlineName	Short Text		
Code	Short Text		
C_No	Number	FK	Country

- The 'C_No' field uses 'Country' to show 'CountryName', and the actual input value is 'C_No'.

E. Schedule

Field Name	Data Type	condition	note
S_No	AutoNumber	PK	
A_No	Number	FK	Airline
DepartureDate	Date/Time		
T_No	Number	FK	Travel
DepartureTime	Date/Time		
Gate	Number		1 or more (integer)

- The 'A_No' field uses 'Airline' to show 'AirlineName', and the actual input value is 'A_No'.
- The 'T_No' field uses 'Travel' to show 'TravelName', and the actual input value is 'T_No'.

- If 'Gate' is less than or equal to 0, a warning phrase 'Please enter a number greater than 1.' is invoked.

F. Reservation

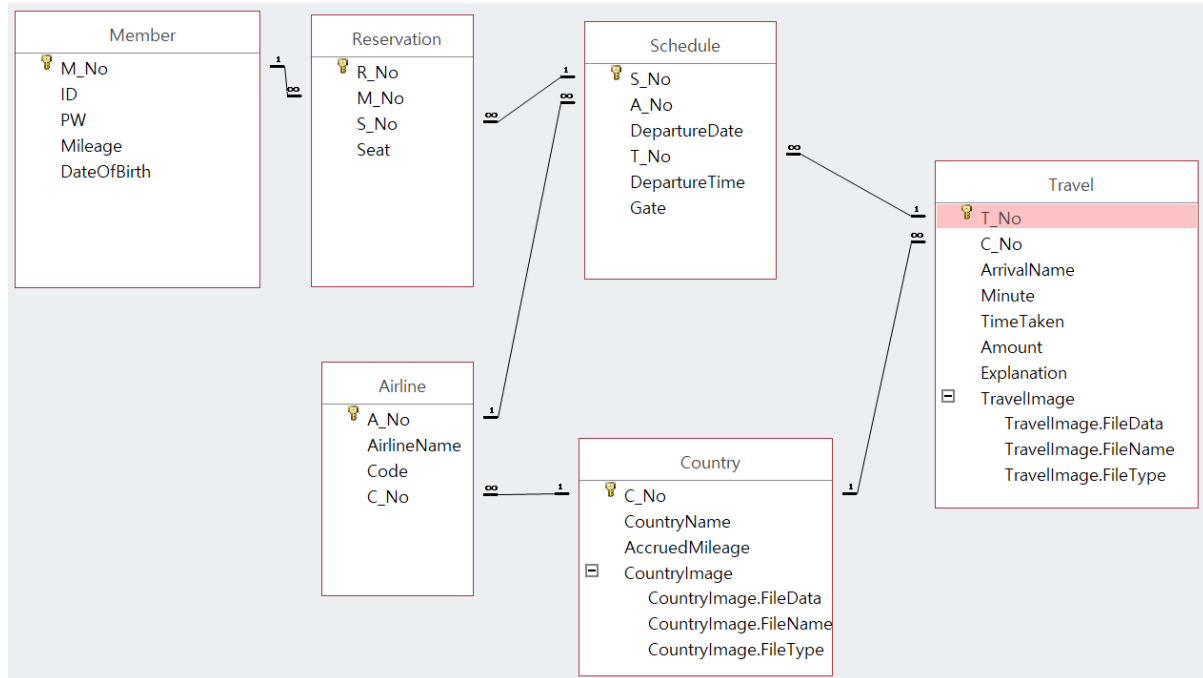

Field Name	Data Type	condition	note
R_No	AutoNumber	PK	
M_No	Number	FK	Member
S_No	Number	FK	Schedule
Seat	Short Text		

- The 'M_No' field uses 'Member' to show 'ID', and the actual input value is 'M_No'.
- The 'S_No' field uses 'Schedule' / 'Travel' to show 'AirlineName'/'ArrivalName', and the actual input value is 'S_No'.

3. Relationship and referential integrity rules

- All tables have a one-to-many relationship.
- Maintain referential integrity.
- Relevant fields can be updated.
- Deleting a record deletes all related records.

Module 2. Query

Allotted time: 20 minutes

1. Update Query

- Query name : TimeUP
- Execute the query and apply the following to the 'TimeTaken' field using the 'Minute' field of the 'Travel' table.

TimeUP

T_No	C_No	ArrivalName	Minute	TimeTaken	Amount	Explanation
1	Azerbaijan	Baku	480	8:00	€292.00	Azerbaijan's capital and largest city
2	Azerbaijan	Quba	460	7:40	€328.00	Waterfalls, mountains and lakes
3	Azerbaijan	Ganja	450	7:30	€364.00	
4	Bangladesh	Dhaka	650	10:50	€620.00	Bangladesh's largest city, 700 mosques
5	Bangladesh	Rajshahi	630	10:30	€605.00	Padma Garden,
6	Bangladesh	Rangpur	690	11:30	€583.00	

2. Parameter Query

- Query name : SearchByCountry

Enter Parameter Value ? X

Enter part or all the ArrivalName to be searched

ti

OK Cancel

- When 'SearchByCountry' query is executed, the parameter input window appears.
- Extracts records that include the input value among 'ArrivalName' and counts them.
- Calculates the sum of the total number of extracted records.

CountryName	ArrivalName	Explanation	Number of Reservations
Bangladesh	Chittagong		591
Bangladesh	Silet	City of saints	543
Chinese Taipei	Taichung		614
Chinese Taipei	Tainan	The oldest city in Taiwan and the first city to be developed on the island of Taiwan.	585
Chinese Taipei	Taipei	Taiwan's capital and largest city	507
Japan	Kyoto	Temples and Shrines, World Heritage Sites, Museums	546
Japan	Tokyo	The capital of Japan, the center of Japanese politics, economy, culture, education, finance, industry, transportati	546
Malaysia	Kota Kinabalu	The largest city on the island of Borneo in eastern Malaysia.	567
Total			4499

3. Select Query

- Query name: ReservationRankingByCountry

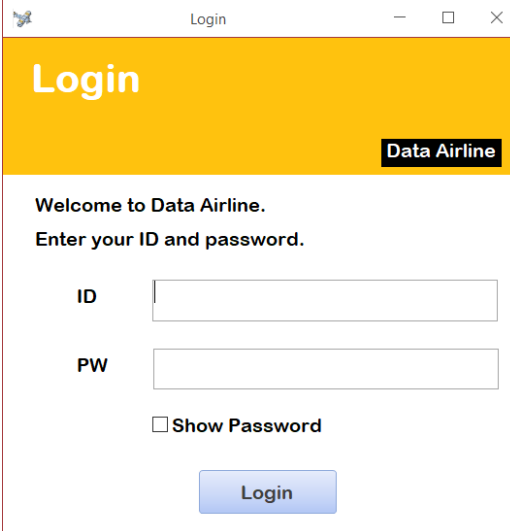

CountryName	Count	Ranking
Malaysia	4121	1
Japan	3218	2
Korea	3218	2
China	2907	4
Bangladesh	2675	5
Chinese Taipei	2179	6
Azerbaijan	1706	7
Total	20024	

- Retrieve the number of reservations and ranking by 'CountryName'. However, if the ranking is the same, it is in the order of 'C_No'.
- Sort by 'Ranking' in ascending order.
- Calculate the total sum of 'Count' at the bottom.

Module 3. Basic interface

Allotted time: 40 minutes

1. Login' PAGE

The screenshot shows a web browser window titled 'Login'. The page has a yellow header bar with the word 'Login' in white and a small 'Data Airline' logo on the right. Below the header, the text 'Welcome to Data Airline. Enter your ID and password.' is displayed. There are two input fields: 'ID' and 'PW'. Below the 'PW' field is a checkbox labeled 'Show Password'. At the bottom is a blue 'Login' button.

A. PAGE DESIGN

- Mark PW as *.
- When Show Password is checked/unchecked, *** ↔ input characters are changed.

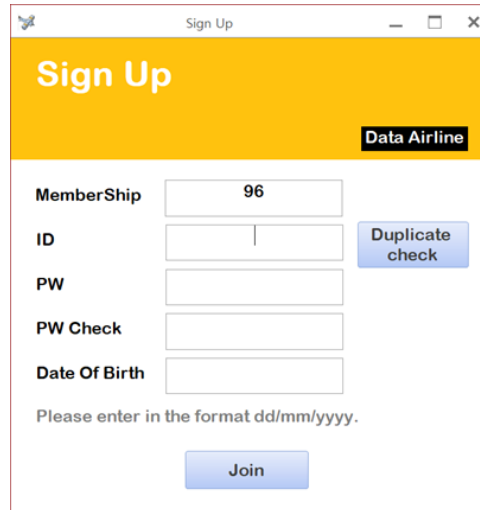

B. Control the [Login] button as follows.

- Blank control → warning: There are blank spaces.
- error control → warning message → delete content, keep cursor
 - If the ID is not a member ID or "admin" → warning: ID not present.
 - If the ID is correct and the password is incorrect → warning: Please check your password.
- In case of 3 errors → warning: Exit with 3 errors. → Exit the login page → 'Main' PAGE

C. If the ID/PW of the member is correct → information: Welcome OOO! → 'Member Main' Page

D. If you are an administrator (admin/1234) → information: Welcome administrator! → 'Admin Main' Page

2. 'Sign Up' PAGE

A. PAGE DESIGN

- In MemberShip, make sure that the last number +1 is automatically uploaded to the 'Member' table and cannot be entered or modified.

B. Control the [Duplicate check] button as follows.

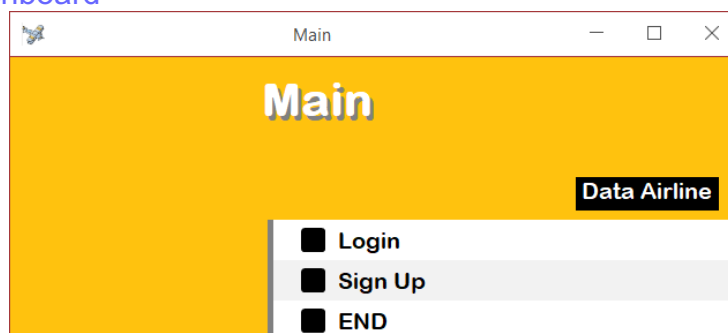

- If blank → warning: Please enter your ID. → keep cursor
- Exists in Member or admin → warning: This ID already exists.
- If the ID is usable → information: ID available.

C. Control the [Join] button as follows.

- Blank control → warning: There are blank spaces. → Keep focus on blank
- Error control → content deletion / cursor maintenance
- If 'PW' and 'PW Check' are not the same → warning: 'PW' and 'PW Check' are not the same.
- If 'Date Of Birth' is not in 'dd/mm/yyyy' format or is in the future → warning: Not in date format or future controlled.
- When the [Duplicate check] button is not clicked → warning : Please 'Duplicate check'.

D. Satisfy input conditions → information: Sign up is complete. → Close 'Sign up' PAGE → It is entered in the "Member" table (mileage 100).

3. 'Main' Switchboard

A. Opened at project start.

B. Connect each button.

C. Click the 'END' button. → End of database.

Module 4. User interface

Allotted time: 50 minutes

1. Reservation' PAGE

A. PAGE DESIGN

- [a] area is designed as a parent page, and [b] area is designed as a sub-page according to 'Schedule'.

B. TOP PAGE

- The logged-in member ID appears in the 'User ID' field, and cannot be modified.
- For 'Schedule', the entire S_No is uploaded.
- If you select the number in the 'Schedule' combo box, the sub-page [Flight Schedule] is automatically uploaded.

C. SUB PAGE

- The 'Arrival Time' of the sub-page is obtained using 'DepartureDate', 'DepartureTime', and 'Minute'.

D. Control the [Information] button as follows.

- If S_No is not selected → warning: Please select a schedule number.
- The information of S_No opens to the 'Travel Guide' PAGE.

E. Control the [Reservation] button as follows.

- Blank control → warning: There are blank spaces.
- Error control → warning: Check your seat. → delete content, keep cursor
 - If the first letter of Seat is F and the numbers are not 01 to 05
 - If the first letter of Seat is B and the numbers are not 01 to 10
 - If the first letter of Seat is E and the numbers are not 01 to 50
- If the seat is already reserved for the schedule → warning: This seat has already been reserved.

F. Condition satisfied → page exit → Save to "Reservation" table

→ information: Reservation is complete.

Mileage in the "Member" table is credited.

2. 'Travel Guide' PAGE

Travel Guide

Guide to travel destinations by country

Data Airline

Travel	Country	Amount(EUR)	Mileage	Explanation
		€292.00	€20.00	Azerbaijan's capital and largest city
<Baku>	<Azerbaijan>			

A. If there is no explanation, "No explanation" is displayed.

3. 'My PAGE' PAGE

R_No	CountryName	ArrivalName	DepartureDate	DepartureTime	AirlineName
139	Malaysia	Kota Kinabalu	27/03/2023	8:00	Jin Air
147	Azerbaijan	Quba	09/03/2023	13:00	JAPAN AIR
301	China	Shenzhen	01/03/2023	7:00	ALL NIPPON
850	Azerbaijan	Quba	31/03/2023	21:00	Biman Bangladesh
918	Bangladesh	Rangpur	13/03/2023	9:00	Asiana Airlines
921	Japan	Tokyo	30/03/2023	9:00	JAPAN AIR
974	Chinese Taipei	Taipei	28/03/2023	3:00	Air Seoul
1086	Bangladesh	Silet	07/03/2023	7:00	Korean Air
1112	Bangladesh	Rangpur	03/03/2023	12:00	Jeju Air
1139	China	Shanghai	31/03/2023	8:00	Jin Air
1185	Korea	Gangwon	22/03/2023	17:00	ORANGE LINER
1204	Malaysia	Melaka	04/03/2023	23:00	China Airlines
1215	Malaysia	Ipoh	24/03/2023	9:00	AIR PEACH
1325	Japan	Kyoto	11/03/2023	9:00	China Airlines
1805	Malaysia	Ipoh	13/03/2023	19:00	T'way Air

A. PAGE DESIGN

- The information of the logged in member is displayed and cannot be modified.

B. If no record is selected → warning: Choose a Record.

C. Control the [BoardingPass] button as follows.

- The 'BoardingPass' PAGE of the selected record appears.

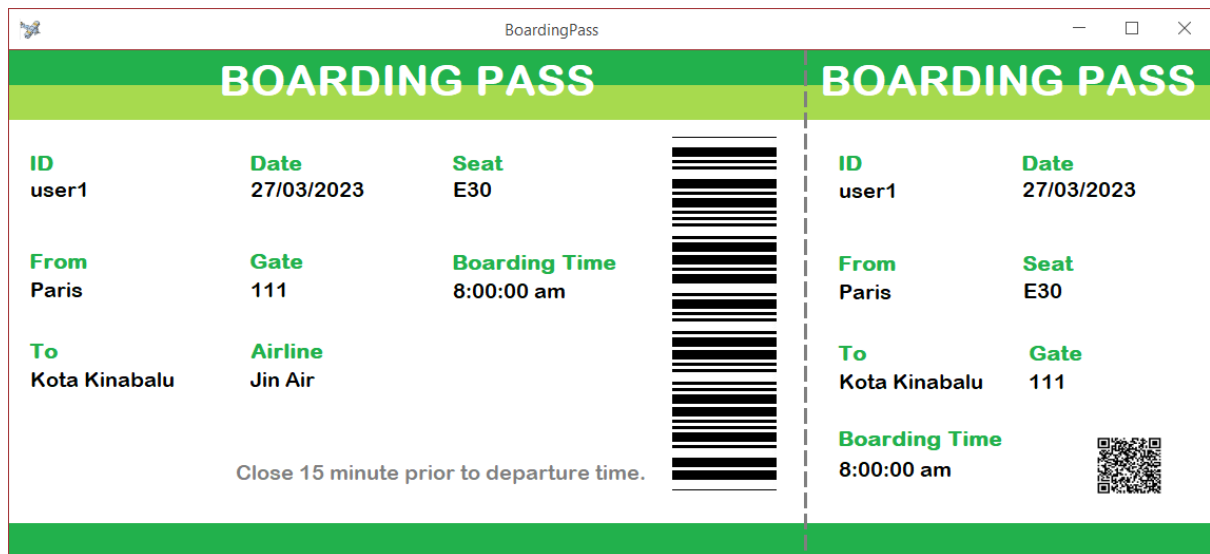

D. Control the [More Information] button as follows.

- The 'Travel Guide' PAGE of the selected record appears.

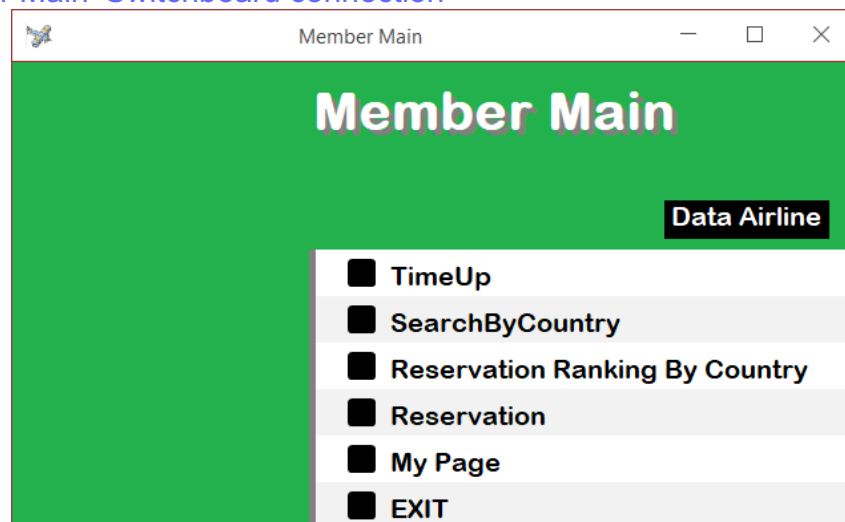

E. Control the [Delete] button as follows.

- [Yes] → information: Delete is complete. → Accumulated mileage will be deleted.
 However, the minimum amount after mileage deduction is zero.
- The records in the 'Reservation' table are also deleted.

4. 'BoardingPass' PAGE

5. 'Member Main' Switchboard connection

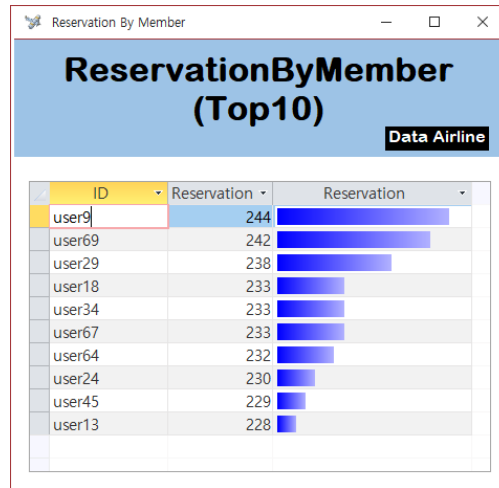

- A. Click 'TimeUp'.
 - Run 'TimeUp' → information: 'TimeTaken' change completed.
- B. Click 'SearchByCountry' to display the 'SearchByCountry' PAGE
 - If there are no search results, do not open the page → information: No search results.
- C. Click 'Reservation Ranking By Country', the query 'ReservationRankingByCountry' appears.
- D. Click 'Reservation' to display the 'Reservation' PAGE.
- E. Click 'My PAGE' to display the 'My PAGE' PAGE.
- F. Clicking 'EXIT' closes the 'Member Main' PAGE and opens the 'Main' PAGE.

Module 5. Administrator interface

Allotted time: 50 minutes

1. 'Reservation By Member' PAGE

A. PAGE DESIGN

- Get the total number of reservations per member and sort in descending order. However, if the number of reservations is the same, they are sorted in ascending order of member number.
- Displays the percentage table for the number of reservations.

2. 'Travel Management' PAGE

A. PAGE DESIGN

- Only the image (double-click), amount, and description can be edited.
- You can move (first / previous / next / last) by clicking the record movement button.
- When clicking first/previous in the first record → information: This is the first record.
- When clicking Next/Last on the last record → information: This is the last record.
-  Click → information: Description corrected. → Edit information

3. 'Register Flight Schedule' PAGE

The image displays two side-by-side screenshots of a web application window titled 'Register Flight Schedule'. Both windows have a blue header bar with the title and a 'Data Airline' button. The main content area contains a form with five input fields: 'Code' (a dropdown menu), 'DepartureDate' (a text box), 'Travel' (a dropdown menu), 'DepartureTime' (a text box), and 'Gate' (a text box). Below the form is a blue 'Register' button.

In the left screenshot, all input fields are empty. In the right screenshot, the fields are populated with the following values: 'Code' is 'AZQ', 'DepartureDate' is '15/04/2023', 'Travel' is 'Dhaka', 'DepartureTime' is '10:30', and 'Gate' is '7'.

A. PAGE DESIGN

- Code combo comes with the code of 'Airline'.
- Travel combo comes with 'ArrivalName'.

B. Control the [Register] button as follows.

- Blank control → warning: There are blank spaces. → Keep focus on blank
- Error control → warning message → delete content, keep cursor
- If 'DepartureDate' is less than the present or the date format is not dd/mm/yyyy → Enter into the future
- If the format of 'DepartureTime' is not hh:mm time → Check the time.
- If 'Gate' is not a number → Please enter in numbers.
- Condition satisfied → Save to "schedule" table → information: Flight schedule has been registered.

4. 'Reservation Status By Country' Report

C. Report DESIGN

- When the report is executed, the input window appears, and the report of the corresponding input value (ArrivalName) is displayed in the page of a print preview.

Enter Parameter Va... ? X

Enter ArrivalName

Tokyo

OK Cancel

- If there is no input or it is empty → warning: No results were found for your search.
- At the top of the first page, the country name, number of reservations, amount, and total amount are displayed according to the input.
- Each record is distinguished by a different background color.
- Dates exclude duplicates.
- Each page is indicated as current page / total page as shown in the following figure.
- At the bottom of the last page, the end display color and company logo (Data Airline) are displayed.

ReservationStatusByCountry Japan

Total Number of People : 546cases Amount : €627.00 Total Amount £342,342.00

5. 'Admin Main' Switchboard connection

- A. When you click 'Reservation By Member(Top10)', the 'Reservation By Member' PAGE appears.
- B. Click 'Travel Management' to display the 'Travel Management' PAGE.
- C. Click 'Register Flight Schedule' to display the 'Register Flight Schedule' PAGE.
- D. Click 'Reservation Status By Country' to display the 'Reservation Status By Country' report.
- E. Click 'EXIT' to close the 'Admin Main' page and display the 'Main' PAGE.

4. Procedure

Day-1 (March 23rd): The day before the competition, contestants will be welcomed on the stand by the jury. A briefing about the organization of the competition will be given and the workstations will be chosen at random. Due to the large number of registered contestants, the competition will be organized in two groups. Contestants from a same delegation will inevitably be placed in the same group. Each contestant will receive a schedule with detailed working hours. Contestant will draw lots to be assigned to a work place, where they may drop off their tools.

Composition of the groups

Group 1: 3 contestants	Group 2: 3 contestants
Chinese Taipei, 1 contestant	China, 1 contestant
Japan, 2 contestants	Korea, 1 contestant
	Malaysia, 1 contestant

Day 1 (March 24th): Contestants from Group 1 will have 3 hours to complete their task assignment. Contestants from Group 2 will go on an organized trip.

Day 2 (March 25th): Contestants from Group 2 will have 3 hours to complete their task assignment. Contestants from Group 1 will go on an organized trip.

5. Scoring criteria

N°	Items to be evaluated	O/S	Scoring scale
Module 1			20
01	Common conditions - Page logo	O	1
02	Common conditions - Error/Information Message Design	O	1
03	Common conditions - Remove Access Default Message	O	1
04	Member Table - Create Member table	O	1
